

Church in Germany – A resource or a disappointment?

// INSTA-Talk

Belonging to a church can help us immigrants to make new friends, reduce loneliness and settle down more quickly in Germany.

However, many immigrants struggle to find a spiritual home in Germany and are often disappointed by their local church.

In these conversations with distinguished guests, we will discuss the challenges we face as African immigrants in German churches.

We will also explore some ways of dealing with these challenges without losing our faith.

The conversations will take place once a month on Sunday evenings, on Instagram live (@waithira_theimmigrant).
